41423	Residential Care Occupancy - 26 plus people	To operate a residential care occupancy with an occupancy in excess of 25 people - does not apply to federally owned and operated facilities.	\$ 461.00	100%
41455	Rooftop Heliports	To operate or maintain a rooftop heliport	\$ 287.00	100%

\* The cost shown in the "Fee" column has already been adjusted by the Board approved "Cost Recovery Rate" shown adjacent to each fee.

ACCT	Fee Title	Description	*Fee	Cost Recovery Rate
41460	Self-Inspection Occupancy	Business that are not mandated by the State of California to be annually inspected may be eligible to participate in a Self-Inspection Occupancy program. Eligibility is determined by the State of California and by the Fire Districts availability to provide onsite inspections.	\$ 118.00	100%
<b>Code Enforcement / Penalty Fees</b>		<b>Code Enforcement and Penalty fees are assessed when a member of the Public requires the Fire District to perform duties that are in excess of its normal business procedures/operations or are due to the negligence of a member of the Public.</b>		
41311	Administrative Service for Delinquent Accounts or Fees (Late Fee)	A late fee will be assessed for all annual permits per collection attempt. The first collection attempt will be made for any outstanding balance per the payment terms listed on the invoice. Additional collection attempts will be made monthly until the annual permit fee and all late charges have been paid in full.	\$ 33.00	100%
41310	Code Enforcement	Persons or Agencies that have been informed by the District that they are in violation of the Fire Code and or District Ordinance shall be given a reasonable time to correct such violations. After such time has expired the District shall inspect the person or agency's property to determine if the violation has been corrected. If the violation has not been corrected the District shall begin charging an hourly charge for additional follow up inspections until the violation has been corrected.	\$ 228.00	100%
41312	Expired Permit Renewal	To renew an expired permit. If an inspection has not been conducted or an extension request has not been filed then the permit will expire 180 days after issuance.	\$ 89.00	100%
41320	False Alarm Response - Engine	The cost to send a fire engine to a response of a fire alarm when an emergency does not exist in excess of 2 fire alarms in any 12 month consecutive period.	\$ 508.00	100%
41325	False Alarm Response - Inspector	The cost to send a Fire Inspector to a response of a fire alarm when an emergency does not exist in excess of 2 fire alarms in any 12 month consecutive period.	\$ 332.00	100%
41935	Fire Suppression / Hazardous Materials (Investigator) Response	To recover cost for the suppression, mitigation, or investigation of a Fire or Hazardous Materials incident when the cause of the fire or hazardous materials incident is determined to be attributable to negligence or violation of the law. Costs are based on the hourly rate for all personnel as identified in Attachment A, equipment, and materials utilized for the suppression, mitigation, control and investigation of the cause and origin of the incident.	Actual Cost	100%
41313	Non-Sufficient Funds (NSF)	Any payment that is returned by the bank due to non-sufficient funds will be assessed an additional charge to cover the cost to process the reversal, contact the applicant, and to process the new payment.	\$ 198.00	100%
42080	Weed Abatement Services	In accordance with Section 13879 of the California Health & Safety Code, the Fire District has the authority to abate hazardous weeds in the manner set forth in Part 5, Sections 14875-14922 of said code. Pursuant to the Health and Safety Code Section 14898, time is allowed for notified property owners to provide testimony or public objections regarding the weed abatement process. Any declared fire hazards not abated by June 1 of the current year by the property owner will be abated by the Fire District. The cost per parcel abated to the District to conduct inspections, notify property owners, complete reports and file paperwork the county is included in this fee. The property owner will also be responsible for the actual costs to abate the weeds and to assess the fees.	\$ 168.00	100%
41314	Work Commencing before permit issuance	To review work which was completed prior to submittal. Applicant is responsible for paying the normal construction fee in addition to this fee. This fee is assessed per permit.	\$ 66.00	100%
<b>CONSTRUCTION FEES</b>		<b>The Fire District provides services to review plans and to inspect construction for potentially fire hazardous conditions and to verify that fire protection/prevention devices and or systems are installed and operate correctly. Applicants receive one plan review and one inspection per fee unless noted otherwise. Permits are valid for 180 days after issuance.</b>		
41305	Additional Inspection	Fees will be assessed for an additional inspection when a project requires more than the specified inspections previously allocated, work is not ready at the time of a scheduled inspection, or a person is not present at the time of inspection and has not provided at least 24 hours notice of cancellation.	\$ 325.00	100%
41306	Additional Plan Review	Fees will be assessed for an additional plan review when a plan requires more than the specified plan reviews allocated, such as resubmittals.	\$ 181.00	100%
41485	Alternative Fire Suppression Systems (Clean Agent)	To install or modify an Alternate Fire Suppression System/Clean Agent.	\$ 920.00	100%
41890	Alternative Materials & Methods Request	To submit a request for alternative materials and methods for review by the Fire District Staff.	\$ 630.00	100%
41490	Automatic Fire Extinguishing Systems (Kitchen Hood Systems)	To install or modify an Automatic Fire Extinguishing System/Kitchen Hood Systems.	\$ 410.00	100%

\* The cost shown in the "Fee" column has already been adjusted by the Board approved "Cost Recovery Rate" shown adjacent to each fee.

ACCT	Fee Title	Description	*Fee	Cost Recovery Rate
41495	Battery Systems (includes cell sites)	To install a storage battery system having a liquid capacity of more than 50 gallons (189 L)	\$ 352.00	100%
41895	Consultation - Per Hour	The fee per hour to consult with District Staff concerning reviews or projects.	\$ 236.00	100%
41335	Emergency Repairs	To conduct an emergency repair to any automatic fire sprinkler, underground, private fire hydrant or overhead system, compressed gas piping systems, or hazardous materials system.	\$ 551.00	100%
41810	Expedite Fee	The fee to reduce the plan review period to a period of two weeks or less for plan submittals.	\$ 300.00	NA
41540	Fire Alarm System (Includes 25 devices)	To install, modify, repair, or relocate a fire alarm system with up to 25 fire alarm devices. Fire alarm devices include, but are not limited to heat, smoke, duct, water-flow, manual pull stations and fire notification devices, strobes, horns, and bells	\$ 649.00	100%
41545	Fire Alarm System (Additional 25 devices)	To install, modify, repair, or relocate each additional 25 alarm devices in excess of the first 25 devices.	\$ 180.00	100%
41565	Fire Alarm System - Group Care Facility	To install, modify, repair, or relocate a fire alarm system in a Group Care Facility. Fire alarm devices include, but are not limited to heat, smoke, duct, water-flow, manual pull stations and fire notification devices, strobes, horns, and bells	\$ 550.00	100%
41875	Fire Pumps & Related Equipment - New Installation (Non-Residential Applications)	To install in a commercial building fire pumps, related fuel tanks, jockey pumps, controllers and generators.	\$ 1,301.00	100%
41880	Fire Pumps & Related Equipment - Modifications (Non-Residential Applications)	To modify in a commercial building fire pumps, related fuel tanks, jockey pumps, controllers and generators.	\$ 466.00	100%
41825	Fire Sprinklers System (New) - Commercial (includes 100 heads)	To install a new fire sprinkler system in a commercial building which includes up to 100 sprinkler heads. (Includes two inspections and the final inspection)	\$ 1,165.00	100%
41826	Fire Sprinklers System (New) - Commercial (each additional 100 heads)	To install each additional 100 sprinkler heads in excess of the first 100 sprinkler heads for a new system in a commercial building.	\$ 599.00	100%
41827	Fire Sprinkler System (TI) - Commercial (up to 20 heads)	To modify or install sprinkler heads in an existing fire sprinkler system in a commercial building which includes up to 20 sprinkler heads. (Includes the first inspection and the final inspection)	\$ 681.00	100%
41828	Fire Sprinkler System (TI) - Commercial Additional 100 Heads	To modify or install each additional 100 sprinkler heads in excess of the first 20 sprinkler heads for an existing sprinkler system in a commercial building.	\$ 303.00	100%
41860	Fire Sprinkler System - Residential (up to 50 heads)	To install a new fire sprinkler system in a residential building which includes up to 50 sprinkler heads. (Includes the first inspection and the final inspection)	\$ 499.00	70%
41865	Fire Sprinkler System - Residential (each additional 50 heads)	To install each additional 50 sprinkler heads in excess of the first 50 sprinkler heads for a new system in a residential building.	\$ 161.00	100%
41866	Fire Sprinkler System Modification / Addition - Residential (up to 50 heads)	To modify or install sprinkler heads in an existing fire sprinkler system in a residential building which includes up to 50 sprinkler heads. (Includes the first inspection and the final inspection)	\$ 591.00	100%
41867	Fire Sprinkler System Modification / Addition - Residential (Additional 50 heads)	To modify or install each additional 50 sprinkler heads in excess of the first 50 sprinkler heads for an existing sprinkler system in a residential building.	\$ 199.00	100%
41570	Firefighter Air System and Radio Signal Amplification Systems	To install or modify a firefighter air system in a building or structure or to install and test a firefighter radio signal amplification system in a building or structure.	\$ 1,450.00	100%
41365	Floor Finishing	To finish a floor or perform surfacing operations exceeding 350 square feet using Class 1 or 2 liquids.	\$ 271.00	100%
41696	Fume / Lab Hood Installation	To install a fume or lab hood.	\$ 455.00	100%
41697	Gate Installation	To install an automatic gate.	\$ 234.00	50%
41698	Generator Installation	To install a stationary generator.	\$ 629.00	100%
41624	Hazardous Material Business Closures	To close a business that maintains hazardous materials units. This fee is assessed for every three hazardous material types that a business maintains.	\$ 366.00	100%
41620	Hazardous Material Systems - Industrial, Manufacturing, R&D Bldg. (First System)	To install, modify, abandon or remove any system in an Industrial, Manufacturing, R&D Building using hazardous materials (including but not limited to lab hoods and pipeline) as regulated by Chapter 27 of the IFC	\$ 1,094.00	100%
41621	Hazardous Material Systems - Industrial, Manufacturing, R&D Bldg. (Additional System)	To install, modify, abandon or remove each additional system in excess of the first system in an Industrial, Manufacturing, R&D Building using hazardous materials (including but not limited to lab hoods and pipeline) as regulated by Chapter 27 of the IFC	\$ 116.00	100%
41622	Hazardous Material Systems - Medical Bldg. (First System)	To install, modify, abandon or remove any system in a Medical Building using hazardous materials (including but not limited to lab hoods and pipelines) as regulated by Current Chapter of the IFC.	\$ 591.00	100%

\* The cost shown in the "Fee" column has already been adjusted by the Board approved "Cost Recovery Rate" shown adjacent to each fee.

ACCT	Fee Title	Description	*Fee	Cost Recovery Rate
41623	Hazardous Material Systems - Medical Bldg. (Additional System)	To install, modify, abandon or remove each additional system in excess of the first system in a Medical Building using hazardous materials (including but not limited to lab hoods and pipelines) as regulated by Current Chapter of the IFC.	\$ 116.00	100%
41340	Hazardous Materials Tanks - Initial Tank	To install, remove or abandon in place any aboveground or underground tank storing any type of hazardous material. To temporarily close any aboveground or underground hazardous material storage tank for up to 12 months.	\$ 613.00	100%
41345	Hazardous Materials Tanks - Additional Tank	The cost per additional tank to install, remove or abandon in place any aboveground or underground tank storing any type of hazardous material or to temporarily close any aboveground or underground hazardous material storage tank for up to 12 months.	\$ 103.00	100%
41666	High Piled Rack Storage	To install in a building or a portion thereof high-piled storage in an area exceeding 500 square feet and 12 feet high and/or Group A plastics, flammable liquids, idle pallets and similar commodities where top of storage is greater than 6 feet in height. An annual fee is applicable to any high piled storage one year after installation.	\$ 946.00	100%
41667	HVAC Installation	To install a 2000 cubic feet per minute (CFM) or more HVAC system.	\$ 494.00	100%
41870	Monitoring System (includes 25 devices)	To install, modify, repair, or relocate an Automatic Fire Sprinkler Supervision / Fire Alarm Monitoring System with up to 25 devices.	\$ 584.00	100%
41871	Monitoring System (Additional 25 Devices)	To install, modify, repair, or relocate an Automatic Fire Sprinkler Supervision / Fire Alarm Monitoring System for each additional 25 devices in excess of the the first 25 devices.	\$ 161.00	100%
41700	New Construction / TI (Commercial) Includes 25,000 Linear Sq. Ft.	All Commercial new construction and tenant improvement projects require Fire District review.	\$ 615.00	100%
41705	New Construction / TI (Commercial) Additional 25,000 Linear Sq. Ft.	New construction and Tenant Improvement commercial projects in excess of 25,000 linear sq. ft. shall be assessed an additional fee for each additional 25,000 linear sq. ft.	\$ 167.00	100%
41741	Photovoltaic (Residential)	To install a residential photovoltaic system.	\$ 378.00	100%
41742	Photovoltaic (Commercial)	To install a commercial photovoltaic system.	\$ 610.00	100%
41745	Site Access / Water (Commercial)	To review any commercial plan for site access and adequate water supply and deliver written comments to the local planning department per address.	\$ 598.00	100%
41750	Site Access / Water (Residential)	To review any residential plan for site access and adequate water supply and deliver written comments to the local planning department for up to a subdivision of two parcels.	\$ 507.00	100%
41751	Site Access / Water - Additional 25 Subdivision of Parcels (Residential)	To review any residential plan for site access and adequate water supply and deliver written comments to the local planning department for up to each additional subdivision of twenty five parcels in excess of two parcels of a subdivision.	\$ 515.00	100%
41740	Site Review (Residential)	To review any residential plan for site access and deliver written comments to the local planning department per address.	\$ 241.00	65%
41795	Standpipe Installation	To install a new system or perform a modification to an existing system when the system is not a combination sprinkler system.	\$ 884.00	100%
41800	Underground Piping Installation (includes first 50 feet)	To install fire service underground piping and associated appliances. Includes up to the first 50 feet of piping.	\$ 804.00	100%
41805	Underground Piping Installation (additional 50 feet)	To install fire service underground piping and associated appliances for each additional 50 feet of piping in excess of the first 50 feet.	\$ 138.00	100%
41815	Variance Request	To submit a variance request for review by the Fire District Staff.	\$ 720.00	100%
<b>DOCUMENT FEES</b>		<b>The Fire District offers a variety of Reports and Documents to the Public.</b>		
42391	Comprehensive Annual Financial Report (CAFR)	To purchase one hard copy of the District's CAFR. An electronic copy is available on the District's website.	\$ 5.00	100%
42392	District Budget	To purchase one hard copy of the District's Budget. An electronic copy is available on the District's website.	\$ 15.00	100%
42393	Duplicate Permit Cards	The cost for an applicant to acquire an additional/replacement permit card.	\$ 55.00	100%

## Annual Hazardous Material Types

Each Hazardous Material Type is summarized below. The California Fire Code Section 105.6 includes a complete listing of Hazardous Material types.

### 1. Aerosol Products

*To store or handle an aggregate quantity of Level 2 or Level 3(spray paints, etc.) aerosol products in excess of 500 pounds net weight*

### 2. Aviation Facilities

*To use any Group H or Group S occupancy as an aircraft hangar for the purpose of servicing, repairing, or aircraft fuel-servicing*

### 3. Cellulose Nitrate Film

*To store, handle, use or display cellulose nitrate film in a Group A Occupancy*

### 4. Combustible Dust-Producing Preparations

*To operate a grain elevator, flour starch mill, feed mill, or plant pulverizing aluminum, coal, coca, magnesium, spices, sugar or other material producing dust as defined in Chapter 2 of the IFC*

### 5. Combustible Fiber

*To store or handle combustible fibers in quantities in excess of 100 cubic feet*

### 6. Compressed Gases

*To store, use, or handle at normal temperature and pressure compressed gases in excess of amounts listed in Table 105.6.8 of the IFC*

### 7. Cryogenics

*To produce, store, transport on site, use, handle or dispense cryogenic fluids in excess of the amounts listed in Table 105.6.10 of the IFC*

### 8. Dry Cleaning Plants

*To engage in the business of dry cleaning using, or to change to, a hazardous cleaning solvent*

### 9. Explosives or Blasting Agents

*To manufacture, possess, store, sell, transport or use.*

### 10. Flammable and Combustible Liquids

*To store, transport, use, handle or dispense flammable or combustible liquids in accordance with the conditions listed in Section 105.6.16 of the IFC*

### 11. Flammable and Combustible Aboveground Storage Tank (>660 gallons)

*To store or dispense flammable or combustible liquids from Aboveground Storage Tanks*

### 12. Fruit Ripening

*An operational permit is required to operate a fruit-, or crop-ripening facility or conduct a fruit-ripening process using ethylene gas*

### 13. Hazardous Materials

*To store, transport on site, dispense, use or handle hazardous materials in excess of the quantities listed in Table 105.6.20 of the IFC*

### 14. Hazardous Materials Aboveground Storage Tank (>660 gallons)

*To store or dispense hazardous materials from Aboveground Storage Tanks*

### 15. HPM Facilities

*An operational permit is required to store, handle or use hazardous production materials*

**16. Hot Work**

*To conduct Hot-work operations in accordance with the conditions listed in Section 105.6.23 of the Fire Code.*

**17. Industrial Ovens**

*For operation of industrial ovens regulated by Chapter 21 of the IFC*

**18. Liquefied or Gas-Fueled Vehicles or Equipment (Assembly Buildings)**

*To display, operate or demonstrate liquid or gas-fueled vehicles, equipment or appliances in any occupancy as approved by the Chief*

**19. Liquefied Petroleum Gas**

*For the storage and use of Liquefied Petroleum Gas in accordance with the conditions listed in Section 105.6.27 of the IFC*

**20. Magnesium Working**

*To melt, cast, heat, treat or grind more than 10 pounds of magnesium*

**21. Organic Coatings**

*For any organic-coating manufacturing operation producing more than 1 gallon (4 L) of an organic coating in one day*

**22. Pyroxylin Plastics**

*For storage or handling of more than 25 pounds (11 kg) of cellulose nitrate (pyroxylin) plastics and for the assembly or manufacture of articles involving pyroxylin plastics.*

**23. Refrigeration Equipment**

*To operate a mechanical refrigeration unit or system regulated by Chapter 6 of the Fire Code*

**24. Repair Garages and Motor Fuel-Dispensing Facilities**

*For operation of repair garages and automotive, marine and fleet motor fuel-dispensing facilities*

**25. Spraying or Dipping**

*To conduct a spraying or dipping operation utilizing flammable or combustible liquids or the application of combustible powders regulated by Chapter 15 of the Fire Code*

**26. Tire-Rebuilding Plants**

*For the operation and maintenance of a tire-rebuilding plant*

**27. Waste Handling**

*For the operation of wrecking yards, junk yards and waste material-handling facilities*

**28. Wood Products**

*To store chips, hogged material, lumber or plywood in excess of 200 cubic feet (6 m3)*
